INFANTILE PARALYSIS IS FOUND IN BARTLESVILLE.

Bartlesville, Okla., Aug. 1.—Infantile paralysis has made its appearance in this county, a case of the disease having developed in the home of George McCullum of Tuxedo park. A three-year-old girl has been stricken and her condition is serious.

Dr. Clarence Weber, county health physician, has had the house quarantined and every effort will be made to keep the disease from spreading.

There is much alarm in that section of the county as well as Bartlesville and many mothers have fled from the city with their small children. The case will be isolated until such time as the danger period has passed.

Copper Cent Brings \$900.

A penny in the collection of the late Griffith W. Lewis of Burlington, N. J., has been sold for 90,000 times its face value and has set a new record for American 1-cent coins. This penny, which is considered the gem of the collection recently put on the market by Howard E. Lewis, executor of his father's estate, is a big copper cent coined by the state of New Jersey in 1786. Hilyard Ryder of Elmira, N. Y., is the purchaser of the Lewis penny for \$900. Senator Lewis gave \$50 for it ten years ago.

STREET STORIES

The payment of the per capita money to the Choctaws and Chickasaws is putting a lot of money into circulation here, and the merchants report that the Indians are investing very judiciously.

The police department report one of the quietest days of the year yesterday notwithstanding the fact that an election was in progress and excitement ran high. But few were warned and arrested for disorderly conduct and the police had little to do.

There will be some delay in starting street car service in this city owing to the fact that the company is unable to get prompt shipments of materials from the factories. Cars will be in operation within a few weeks, however and the lines extended to other parts of the city.

H. B. Harts, chairman of the park board is going after the business men of the city now that the election is over to see if he can get enough subscribed to pay for free concerts at least once each week in Central Park. This is a nominal sum and he believes that he can secure the necessary subscription.

"Now let us get busy on the roads" remarked Secretary West of the Chamber of Commerce this morning. "We can now forget the election and get busy for the fall trade which will be greatly augmented if the roads are in a passable condition." The chamber of commerce and the board of county commissioners will take this matter up in earnest next Monday when the board meets.

There will be an ice cream supper at Springer on Friday night, the 4th. Everybody invited. Proceeds to be used for the benefit of the school.

The Follies Kabaret.

"The Follies Kabaret" of the Knights of Pythias at the convention hall tomorrow night promises to be the greatest drawing card ever offered in the city. The dress rehearsal last night demonstrated what home talent can do under proper direction, and every member of the big cast worked in fine shape.

The work of building the duplication of the Madison Square Garden cabaret room was completed today, and all of the electrical attachments placed in position and a scene of

unusual beauty will be presented when the curtain is rung up.

The special features are of a unique character, and some of the home boys and girls, according to those who have witnessed a rehearsal, will make some professionals look to their laurels.

The black face work is particularly clever, as are some of the dances, and two hours of the very highest class vaudeville is promised. There will be from twenty to one hundred on the stage during the entire performance, which is a continuous one.

Liquor Men Gain Advantage.

Fort Smith, Ark., Aug. 1.—Prosecution of bootleggers based on their possession of government retail liquor licenses was given a vital blow Tuesday when counsel for Theodore Vogel Jr., of this city produced at Vogel's preliminary hearing a decision rendered in 1911 by the Arkansas supreme court prohibiting the introduction of certified copies of the internal revenue collectors' records to prove defendant in such cases had a government liquor license. The court dismissed Vogel. An Arkansas statute makes possession of federal liquor license prima facie evidence of intent to violate the liquor law. The decision affects many cases recently instituted here.

Miss Margaret White of Dallas, Tex., is in the city the guest of Mrs. E. E. Guillot. Miss White is organist of the Sacred Heart Cathedral in Dallas, and one of the most prominent musicians in that state.

Last evening at 8:15 o'clock Mrs. H. B. Harts presented her pupils in a recital given at her home on Stanley boulevard. A large number of friends were present and showed their appreciation of the entire program. Mrs. Harts was assisted by Mrs. Homer Adams, contralto, and Miss Ozella Pugh, violinist, who played an obligato for Miss Anderson, and Miss Annie D. Thompson, with her artistic accompaniments. Miss Frances Sharp of Mannsville and Miss Lois Weeks were heard for the first time, and both had pleasing voices. Miss Agnes Anderson, soprano, was at her best in the "Elegie," by Massenet. Her interpretation in French was especially good. Miss Letha Hancock, mezzo soprano, sang "Summer," by Chaminade, in a very artistic manner and showed wonderful improvement since last heard in recital. Miss Frances Jones sang "Obstination" in French in a finished manner, and her rendition of "Dost Thou Know That Fair Land?" from "Mignon" was splendid, this being one of the most exacting numbers on the program. The program closed with an ensemble number, "Barcarolle," from the Tales of Hoffman, given by the class. Too much praise cannot be given Mrs. Harts for the rendition of this splendid classical program. Every pupil seemed interested, and show careful, conscientious teaching in tone work and diction, both French and English.

THE ELECTION RATHER WARM ON TUESDAY

CONTINUED FROM PAGE ONE.

race between Whitson and Reed in the third is very close.

All the state questions have been defeated by big majorities, except the grandfather clause, which has carried by a nice majority.

Cannon and Bourland are the Ardmore justices. Bourland led over Butcher by about four votes.

For constable, Les Segler and Fount Duston have been nominated.

Here are some incomplete returns, which have been counted. While the figures are unofficial, they are in all probability exactly correct:

County Attorney.
Twenty-nine precincts out of 43 give Sigler 1,003 and Hardy 1,628.

GERMANY IS BUILDING LARGE MERCANTILE FLEET

The Hague, Aug. 2.—(Correspondence of the Associated Press).—That Germany is building a tremendous mercantile fleet, including the largest ship in the world, was declared by Herr Ballin, general manager of the Hamburg-American line, in an interview with the Hamburg correspondent of the Frankfurter Zeitung.

The ship referred to is the Bismark, 56,000 tons, being constructed for the Hamburg-American line. There is also the turbine ship, Tirpitz, of 3200 tons under way, and the list includes three others of 22,000 tons. At the Vulcan yards, Bremen, nine ships are building, four of them having a carrying capacity of 18,000 tons, these being the world's greatest freight steamers.

In addition Herr Ballin continued, three big liners are under way at Flensburg yard. Two more steamers of 13,000 tons and three larger passenger freight steamers are being constructed. Two cargo ships of 17,000 tons each are being constructed especially for the Panama canal trade at the Tecklenburg yards at Goeste-muende. The North German Lloyd is building at Lantzig two fast liners of 35,000 tons, the Columbus and the Hindenburg. These are to be speedy, designed to cut down the time between the continent and New York. The same company is building twelve other ships of 12,000 tons, the Munchen and the Zeppelin, of 16,000 tons each. The Bremen-Africa line is constructing six steamers, the Hansa line eight, and the Cosmos line ten, ranging from 9,000 to 13,000 tons.
